

PROTECTION THAT LIVES ON
MICROBAN®

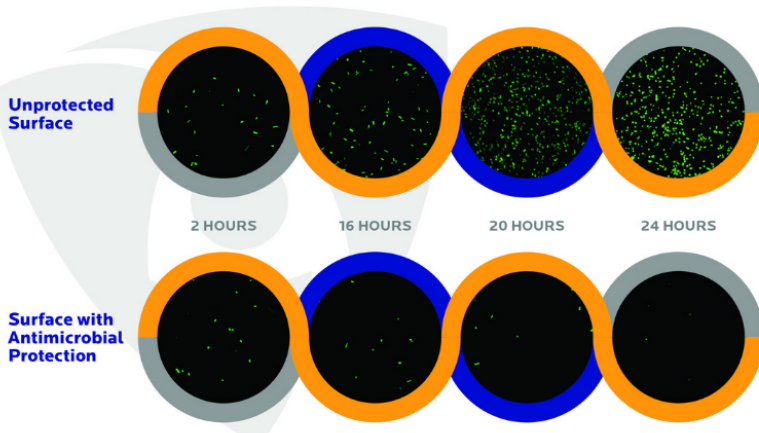

MICROBAN® ANTIMICROBIAL PROTECTION

PROTECTS AGAINST THE
GROWTH OF BACTERIA,
MOLD AND MILDEW ON
THE PALLET SURFACE

24- hour time Lapse: Untreated surface vs. Microban® treated surface

On an untreated surface, the bacteria reproduce rapidly. On a Microban® treated surface, the bacteria struggle to survive and are reduced by up to 99%.

KEY PALLET FEATURES

- 24/7 PROTECTION TO HELP THE PALLETS STAY CLEANER FOR LONGER
- HELPS PALLETS STAY CLEANER IN BETWEEN CLEANINGS
- NOT A COATING, PROTECTION BECOMES A PART OF THE MOLECULAR STRUCTURE THROUGHOUT THE POLYMER DURING MANUFACTURING
